Differentiators

High tech equipment allowing for tight specifications and large production runs. Can meet tolerances of up +/- 0.00015” (4 microns). Our Trumpf Trulaser 3030 laser cutter creates extremely smooth cutting edges that are micro-burr-free. It can process workpieces weighing up to 1,980 pounds with a maximum sheet thickness of up to 25 mm (depending on material). Donal’s Zeiss Contura CMM has a repeatability of 0.00004” (1 micron).

Company Data

A family-owned small business caring about community and employees, Donal is a one-stop, union shop with varied capabilities in house. Expertise in precision machining, fabrication, welding, and laser cutting. No job too small or too big: from a single part to thousands of parts over a multi-year contract. A highly skilled, experienced workforce; many machinists have worked at Donal for 20 to 30 years. Supported by a team of Nadcap certified material and special process vendors.
